

SANGARESHWARAN K

Python Full Stack Developer

 GitHub —  LinkedIn —  Portfolio —  sangarvpy.az@gmail.com —  +91 9994314724

Professional Summary

Goal-oriented **Python Full Stack Developer** skilled in architecting responsive web applications using **Python, Django, Django REST Framework, React.js, JavaScript, Tailwind CSS, and MySQL**. Strong foundation in building high-performance RESTful APIs, relational schema design, client-side state management, and cloud deployment workflows. Proficient in delivering end-to-end full stack solutions with optimized database queries, secure authentication, and seamless user experiences.

Technical Skills

- **Programming Languages:** Python, JavaScript, SQL
- **Frontend Technologies:** React.js, Vite, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+), Bootstrap
- **Backend Frameworks:** Django, Django REST Framework (DRF), RESTful API Architecture
- **Databases:** MySQL, Relational Database Management (RDBMS)
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, Cloudinary, Postman
- **Core Competencies:** Full Stack Architecture, CRUD Operations, State Management, API Integration, Authentication

Projects

- **OneGallery – Hyperlocal E-Commerce Platform** Live: onegallery.in
React.js, Vite, Tailwind CSS, Telegram Bot API, Cloudinary CDN, Vercel
 - Engineered and deployed a production-ready, mobile-first hyperlocal e-commerce storefront with a responsive 2-column catalog grid, dynamic touch carousels, and client-side form validation.
 - Implemented a serverless real-time order dispatch system leveraging Telegram Bot API to instantly transmit Cash on Delivery (COD) order records and location details to management channels.
 - Managed centralized shopping workflows, dynamic cart persistence, custom combo builders, and distance-based delivery fee calculations via React Context API.
 - Integrated Cloudinary CDN for automated image optimization and WebP compression, deploying the build on Vercel with automated CI/CD and custom domain mapping.
- **InstaBus – Bus Ticket Booking System**
Python, Django, Django REST Framework, React.js, MySQL, REST APIs
 - Architected an end-to-end bus reservation platform featuring secure user authentication, token-based session management, and personalized passenger profiles.
 - Engineered modular RESTful APIs using Django REST Framework to handle multi-route search queries, real-time seat availability checks, and ticket cancellation flows.
 - Designed optimized relational database schemas in MySQL with indexed queries and ACID-compliant transactional operations for concurrent seat allocations.
 - Developed an intuitive and responsive React.js frontend interface providing interactive seat mapping, real-time ticket generation, and comprehensive booking history.

Achievements

- Honored with the **Class Topper Award** in recognition of outstanding academic performance across the **2nd and 4th years**.

Education

- **Ganesh College of Engineering, Salem** 2022 – 2026
B.Tech – Information Technology CGPA: 7.3
- **Government Boys Higher Secondary School, Salem** 2022
Higher Secondary Certificate (HSC) 69%
- **Government Boys Higher Secondary School, Salem** 2020
Secondary School Leaving Certificate (SSLC) 79%

Certifications

- **Python Full Stack Certification** – ACTE Technologies, Chennai May 2026
- **Python Programming Certification** – Yardstick Academy
- **Android Application Development** – Wings Technocrats
- **AI Fluency Training** – Naan Mudhalvan Scheme
